### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Douglas Sorensen (Reg. No. 31,570) on 12/13/2004.

The application has been amended as follows:

#### **IN THE CLAIMS**

In claim 18, line 2, "12" is changed to --11--.

The following is an examiner's statement of reasons for allowance:

Claims 8-10, 19 are allowable over the prior art of record for at least the reason that even though the prior art discloses display optical systems incorporating multiple holograms for correcting lateral chromatic aberration, the prior art fails to teach or reasonably suggest an information display optical system, wherein the corrected aberration is longitudinal chromatic aberration that occurs along an optical axis of the optical system, as set forth by the claimed combination.

Claims 11, 14-18 are allowable over the prior art of record for at least the reason that even though the prior art discloses a method for fabricating a holographic optical element having diffraction efficiency in a plurality of wavelength bands by illuminating a holographic material

Art Unit: 2872

with light beams of different wavelengths, the prior art fails to teach or reasonably suggest a method for fabricating a holographic element to correct a chromatic aberration having diffraction efficiency in a plurality of wavelength bands, wherein the wavefront of at least one of the light beams is changed by a transmissive optical element or by a diffractive optical element to correct the chromatic dispersion, wherein dispersion by the transmissive optical element or the diffractive element permits optical positions of the light beam sources relative to the holographic material to be varied, as set forth by the claimed combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Leo Boutsikaris whose telephone number is 571-272-2308.
